MINDEN COUNCIL SELECT BUILDING SITE

Tractor Plunges Over Embankment, Haliburton Man Injured

Nick Nimigon of Haliburton was raced to Ross Memorial Hospital in Lindsay after a Department of Highways tractor that he was driving went out of control and plunged over a thirty foot embankment on Highway 35 at Minden on July 23 breaking his left leg. He was found by a Metro policeman who was on vacation at approximately 3:30 p.m. Corporal Jack Eastwood of the Minden Detachment of the O.P.P. was called who then in turn notified Minden ambulance. Mr. Nimigon was checked over by Dr. F. E. A. Griffiths of Minden at the Red Cross Hospital before being sent to Lindsay.

Haliburton Legion Winner

The winner of the 1963 Chevrolet Impala car draw at the Haliburton Legion Carnival was Mr. Bud Teasdale of Peterborough who is a member of the Haliburton Legion.

Kinsmen Bingo on Tuesday

Kinsmen Reg Hicks asked the Minden Progress to notify the Bingo fans in the Community that the Kinsmen Club of Minden \$1,000 Jackpot Bingo will be held on Tuesday July 30th this week instead of the usual Thursday because of the Rotary Carnival. The Kinsmen Club ask Bingo fans to make a note of the date and come along to the Arena on Tuesday

Search For Missing Girls

MAGISTRATE'S COURT

Magistrates court was held in Minden on July 18th with Magistrate Moore presiding.

Eldon Hicks of Toronto was fined \$25.00 and costs for careless driving.

Charles Raymond Woodcock of Eagle Lake was convicted of selling liquor and was fined \$400.00 and costs.

Thomas Best of Hamilton charged with careless driving following a two car collision at Minden on June 29th was fined \$50.00 and costs. James McVeigh was fined \$50.00 and costs for drinking while a minor

Twist Marathon in Minden

A Twist Marathon is to be held in Minden on 2 August 1963 at Ward's Auto Body Snack Bar. The Marathon to be hosted by Dean Chevalier of CKVR TR, Barrie, commences at 6 p.m. Couples only are accepted for the Twist Marathon and entries may be made at The Pine Shop in Minden by Friday noon, 2 August. The Contest sponsored by various Minden Merchants has a trophy for the Winners and valuable prizes for the First, Second and Third winners.

**SUPPORT THE
ROTARY
CARNIVAL**

Police and over 40 men in the Minden area are searching for Lynn Harkness age 18 of Rochester, New York and Holly Hothman aged 6 years who were reported missing at 11:30 a.m. on Thursday 25 July. The two girls were camping with Mr. Hothman on Minden Lake. Lynn Harkness is reported to be 5'4" tall, weight 110 lbs, brown hair, fair complexion and was last seen wearing plaid bathing suit white shirt and sandals. Holly Hothman was wearing a royal blue bathing suit, she is of stout build, brown hair and eyes with pixie hair cut and turned-up nose. The couple were last seen walking on Horseshoe Lake Road by two boys in a boat. The OPP request anyone seeing them or knowing of their whereabouts to call the OPP Minden or Peterborough collect.

STOP PRESS

As we go to press we learn that the body of Lynn Harkness has been recovered from the lake. The search continues for Holly Hothman.

Some people are like an owl
— the more light you shine in
their eyes, the blinder they get.

At a special meeting of the Anson, Hindon and Minden Council it was decided to build the new Municipal Offices on a site in front of the Minden Arena. It is understood that the new building will stand in front of the existing structure, the intention being that in due course the arena behind can be rebuilt when funds permit to connect with the Municipal Offices.

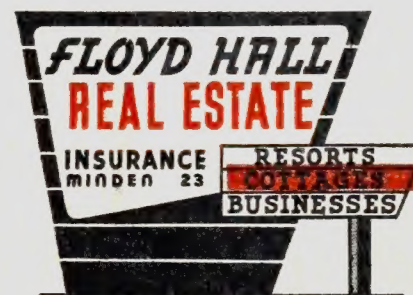

The present Municipal Offices on the Main Street which also house the fire truck and the ambulance were sold last fall to Robert Cox for \$21,000 and Mr. Cox has since been granted a building permit to turn the building into a bowling lane. Since the sale the Council have been renting the same municipal offices from Mr. Cox for -100 a month, and Council are due to vacate the premises by the first of September.

A council member informed the Minden Progress that an architect would be engaged to advise on the Municipal Building construction in order to provide for Minden a building the town would be proud of.

Some opposition to the site selected is evident by the vehement comments made this week to Minden Progress newsmen. It appears that some citizens feel that the site is neither suitable nor desirable.

Anson, Hindon and Minden Council are taking up temporary headquarters in the Assessor's Office in the Registry Building.

A visitor to Minden on the day Kilcoo Camp had the official opening of the extension to the main hall was John Boyd, Photographer from Lindsay. John Boyd a member of the Kinsmen Club of Lindsay is well known to many in the Minden area.

Boys' Camp Correction

In the last issue of Minden Progress we referred to a request made to Minden Council for the building of a boys camp on Canning Lake and reported that the Council were of the opinion that it wouldn't be advisable to grant Mr. A. Cavan permission to start a boys camp there. It is regretted that Mr. Cavan's name was used erroneously — it was Mr. Allan Reilley who made application to Council for the construction of the camp.

We have all sufficient strength to endure the misfortunes of others.

Roche foucauld

Kinsmen Bingo on Tuesday

Kinsmen Reg Hicks asked the Minden Progress to notify the Bingo fans in the Community that the Kinsmen Club of Minden \$1,000 Jackpot Bingo will be held on Tuesday July 30th this week instead of the usual Thursday because of the Rotary Carnival. The Kinsmen Club ask Bingo fans to make a note of the date and come along to the Arena on Tuesday — all proceeds from the Kinsmen Bingos are used for Welfare purposes in Minden and district.

WHAT'S ON IN MINDEN

WHAT TO DO

IN MINDEN AND AREA

MINDEN

BETWEEN THE HAY STACKS

by The Farmer's Daughter

Special permits are now being issued for the movement of farm equipment in excess of 8 feet in width on public roads during Saturdays and holidays.

Permits for transporting wide farm equipment on all public roads have been required by the Department of Transport for some time. But these regular permits exclude use of public roads for this purpose during Saturdays and holidays.

Holders of permits will find it necessary to supplement their regular permits with special permits before utilizing public roads on Saturdays and holidays.

In case where farm equipment is in excess of 14 feet in width must be transported on provincial highways police are requested to escort the equipment. On all secondary roads owners must provide private escort in addition to obtaining the permit plus a special permit for Saturdays and holidays) and an escort. The owner must now display a red flag mounted on a ten foot mast attached to the left rear corner of such equipment.

In case of movement on municipal roads, such as county or township, application for permits are to be made to the clerk of the municipality.

x x x

WEED CONTROL

The only good weed is a dead weed! And the ragweed is one which farmers and especially hayfever victims wish was dead. The department of Agriculture suggests 2, 4-D, 2, 4-DB Atrazine.

Milkweed: Here is a weed which you will recognize by its parachute like seeds. Milkweed's leaves have a wax-coating on the upper surface that sheds herbicide like water. The seed pods are filled with tiny parachutes, each one attached to a flat brown seed. These wind-blown seeds spread the weed far and wide. Very difficult to get rid of. Use Brushkill, a mixture of 2, 4-D,

and 2,4,5-T sprayed on the underside of the weeds. For best results spray when plant is still small, that is, under one foot high. For further information on weed control get in touch with your local Agricultural representative.

x x x

Record Farm Production in 1962

The index of farm production in Canada during 1962 reached 151.4 a record high according to the Dominion Bureau of Statistics. The annual index measures the total physical production of agriculture related to the base year of 1949 100. This record can be attributed to the large grain crops in Western Canada and high outputs of livestock, poultry and dairy products. Saskatchewan had the highest index, followed by Alberta, Manitoba, Quebec, B. C. Ontario. (140.9) and Nova Scotia.

They met but once
They never met before
And she was stricken sore
They met but once
'Twas sad I will allow
They met just once—
The freight train and the cow.

x x x

Have some cows you want to name? Here are some names from the very top production leaders. Selwood Nancy 3, Beachwood Helen 33rd, Cora's Georgeous, Alfalfa Bank Odil 2nd, Twin Erin Maggie, Barberry Lane Jester a sire. Then there is Donholm Greta's Sparkle, Nether Brae Etna 3rd and Woodland's Dainty Kate. Now we know there is a reason for

these odd names but we don't know just what it is. We imagine it is harder to pick out a name for a cow than it would be to name a set of triplets.

x x x

An agriculturist claims that growing corn subjected to music produces more bushels per acre than which is silently grown. Does this mean that

only rock-and-roll farmhands will now be in demand?

Time to put out the lantern, and grampa reminds us that "the best night spot is a comfortable bed."

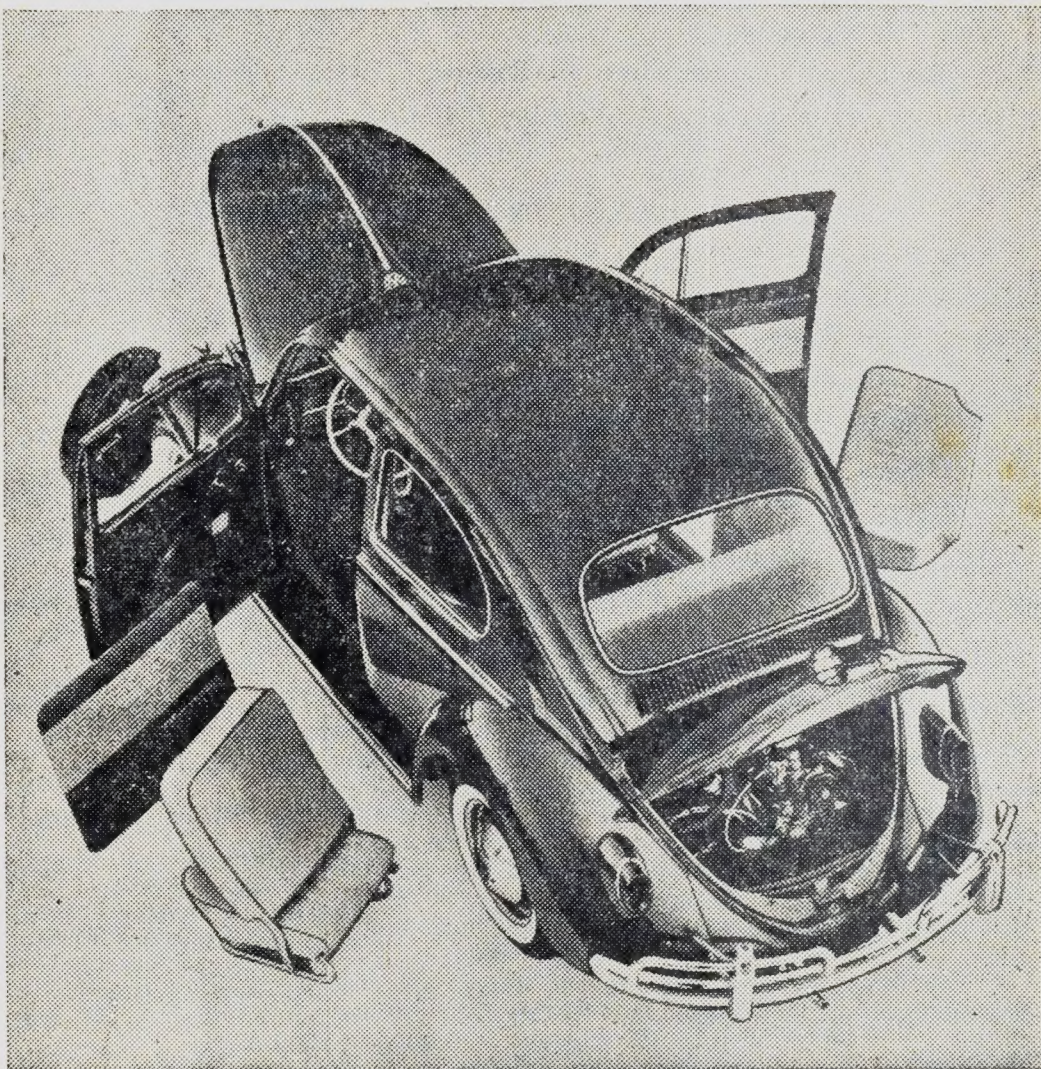

He is truly wise who gains wisdom from another's mishap.

Hamilton Man Dies While

On Vacation

Albert Deveau of Hamilton died while he was vacationing at a cottage on Horseshoe Lake Monday July 22nd. A cottager in the vicinity applied artificial respiration to Mr. Deveau but was unable to revive him. He was rushed to Minden Red Cross Hospital by Minden ambulance but was pronounced dead on arrival.

This car is loaded

It's the Deluxe Volkswagen.

And it's got everything a luxurious car should have, except a high price tag.

There are ash-trays front and back; self parking windshield wipers; windshield washers; automatic courtesy lights; passenger armrest; and door pockets.

It has six heater vents; fully adjustable bucket seats; pleated upholstery;

and a Vinyl headlining on the ceiling.

And enough chrome trim to make it look elegant.

Come in for a test drive. (We'll appraise your trade-in while you drive ours). We'll show you how to sit in the lap of luxury without flattening your pocketbook.

PEACE AND QUIET

Once upon a time the charm of the Haliburton Highlands was the peace found at its lakes and rivers, a peace hardly disturbed by the happy swimmer, the dip of canoe paddles or the quiet lap of waves at the waters edge, the cry of a loon. Man could come here and find peace under the blue skies.

Haliburton Highlands still has these havens of peace but they are getting harder to find. The shattering roar of the outboard motor, the angry slap of white topped waves produced by the churning of racing motor boats whose drivers are interested only in the thrill of speed, destroys the peace.

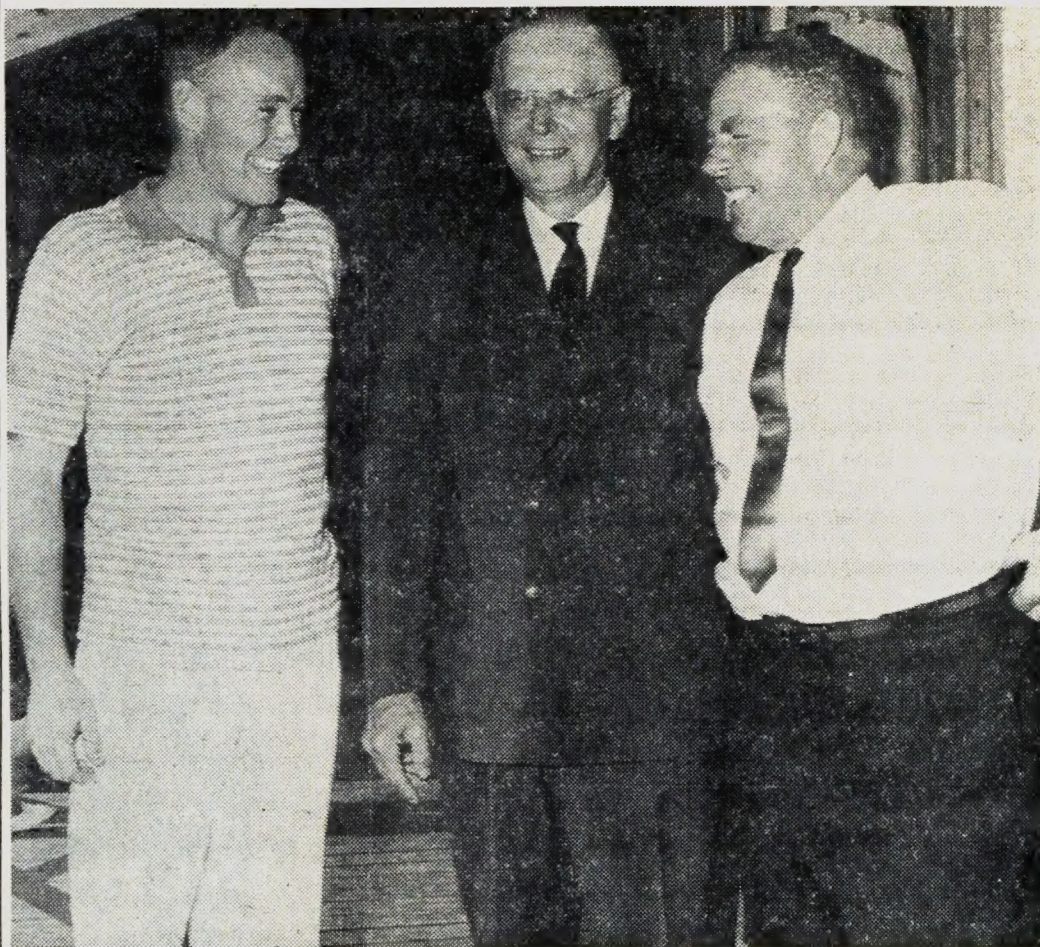

As the cyclist, hiker and pedestrian has been forced from the highways, so are the canoers, the swimmers and fishermen being forced from the lakes — and even the skies above them are becoming ugly with the noise of more and more small private planes. It will get worse. No doubt soon small engines will be available that you can strap on your back so you can hover in the air and add yet more noise to the blatant cacaphony already available today.

Yet, that "little bit of peace and quiet" can still be found if you look for it. Sanctuaries that provide places for a few moments of reflection and meditation can be found down the little country roads at the smaller lakes and in the little country churches. Search out these places of peace, listen to the silence, then keep them peaceful as long as you can for the enjoyment of yourself and others who want to find tranquility in this modern world.

THE LITTER BUGS

The Minden council has tried in many ways to keep the streets in Minden respectably clean. They have hired a man to sweep the main portion of the town and the duties that he performs are carried out fully and to perfection. However, a few hours after the cleanup job is finished the litter bugs are at work and the street is usually a mess in a very short time. These people are not completely to blame because there isn't any place for a person to get rid of an empty cigarette box, or any item that has fulfilled its purpose except to carry it with him or throw it on the street. A few litter receptacles placed in various positions on the sidewalk could help to remedy the situation. Perhaps one of the service clubs might consider the installation of litter bins as a club project.

NEWS and VIEWS

from the Minister's Study

In a village like Minden, served by five churches, CHURCH EVENTS will be a significant part of community life. And a community paper, such as the Minden Progress is endeavouring to be, will have a place for the activities of the various churches of the area. But for a Church Page to survive in a village newspaper it requires in addition to periodic announcement and reports of church groups a regular column to appear in each issue. I am happy to have been invited by the Church Editor to undertake such a column, combining news of my own United Church with information and views on matters relating to all our churches. It is our hope that this column, NEWS & VIEWS — from the Minister's Study may provide a usual and helpful service to the readers of this paper.

Probably the most significant concern of the moment is a decision to withdraw periods of religious instruction in the Haliburton High School this coming year. For a number of years the ministers of the area

have given instruction on a denominational basis, with children being permitted to exempt themselves from classes on written permission from their parents. The set up has created many headaches for high school administrators and the ministerial association has not always been able to reach unanimous agreement in certain phases of the practise. The ministers have requested another opportunity of discussing the whole question with school officials.

Again this summer both the Anglican and United Churches have student-ministers to assist in serving the large numbers of summertime visitors. As well as holding services in a number of cottage areas, these young men are visiting about the lakes and helping resident ministers in parish duties.

Due to the efforts of the local Chamber of Commerce, the Bethel Church, known as "The Church In The Wildwood", has been renovated and restored. This little log church, situated just off the Horseshoe Lake Road is well worth visiting and a key may be obtained from Mrs. R. Kirkwood.

An invitation is also extended to all to the Summer Song Service held in the Twelve Mile Lake Church each Sunday evening at 7:15 p.m. These services of old favorite hymns of the Gospel, prayer and meditation have been a source of inspiration to many in past years.

A CLERGY CHUCKLE — A clergyman came upon a fellow-minister, bewailing the fact that he had killed a poor little rabbit with his car. The first man of the cloth returned to his car and brought back a small bottle. He sprinkled a few drops on the prostrate rabbit, whereupon it jumped up and hopped off into the woods. When asked whatever he had in the bottle the reply came casually: "Just a little hare-restorer."

DAVID STAPLES

Horseshoe Lake Cottagers

Meet

The Horseshoe Lake Property Owner's Association has scheduled a meeting for Sunday July 28 at 11 a.m. at the home of Mr. J. Allan Fyfe in Little Horseshoe Bay.

The purpose of the meeting is to elect officers for the coming year, to appoint committees for the annual August picnic and sports day and to conduct any other business members may wish to bring up.

Kinsmen Club Send Retarded Child To Camp

At a recent meeting of the Kinsmen Club of Minden executive it was decided that the Club Welfare projects would include the sending of a retarded child to summer camp for three weeks. The Welfare Chairman was instructed to make the necessary arrangements.

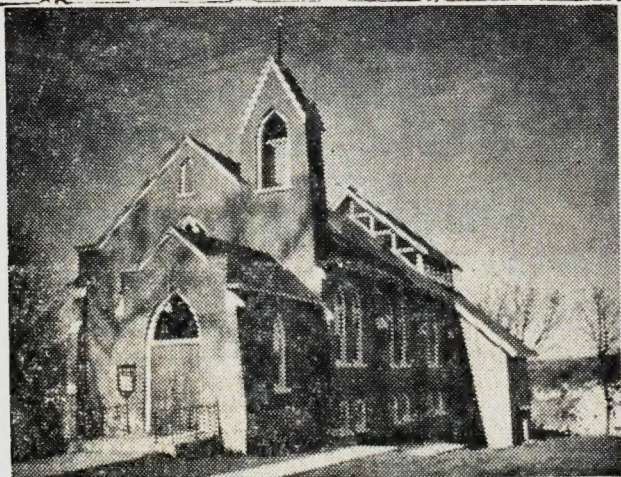

Kinette Club meetings will be more official in future! The Kinette President will shortly call the Kinette Meetings to order while she presides behind a handsome new Lectern to be supplied to the Kinette Club by the Kinsmen Club of Minden.

The Kinettes are holding a Bake Sale on Minden Main St. between the Dime Store and the Oasis Restaurant on Saturday 27 July at 10:30 a.m.

MINDEN TEEN TOWN

TOPICS

Minden Teen Town are holding Teen Dances every Wednesday evening at the present time in the Minden Arena. Through the courtesy of the Kinsmen Club of Lindsay, the Teen Towners were donated two tickets to the Bobby Curtola Dance and Floor Show with the Martells at the Lindsay Annual Kinsmen Carnival. These tickets were to be used as Teen Town prizes. CKLY's Don Blakely MC'd the Teen Dance on Wednesday last and those present had a most enjoyable time.

Two Cars Collide On No. 35 Minor Fined For Obtaining South of Minden

A car driven by Hector Roman of Toronto was smashed in the rear by a car driven by Herbert M. Barry of R.R. no. 1 Haliburton on Saturday July 20th at 12 noon on Highway 35 south of Minden. The accident was investigated by Constable Bush of Minden who said there was an estimated damage of \$450.00 to the cars.

Toronto Man Smashes Car On Gull River Road

John Gayton of Toronto had an estimated \$350.00 damage done to his car when it went out of control and left the Gull River Road and smashed into a rock on Sunday July 21st at 10:15 a.m. The accident was investigated by Corporal Jack Eastwood of The Minden Detachment of the Ontario Provincial Police.

Kinmount Man Fined

John Smoke, 23 of Kinmount was fined \$100 and costs or ordered to serve a 30-day jail term for supplying liquor to a minor. Court was informed that Smoke purchased a case of beer for a 16-year old Kinmount boy who was later arrested and charged with consuming under age.

Kinmount Boy Struck By Train

Carl Anderson, age nine the son of Mr. and Mrs. Raymond Anderson of Kinmount is in satisfactory condition in Lindsay Hospital with head injuries after being struck by a train near Kinmount on Wednesday evening.

He was walking along the railway line when he was struck. Carl was apparently on his way to the swimming pool when the accident happened. The train isn't usually in Kinmount at that time of day.

American Visitor Drowned

James Edward Brumbaugh of Erie, Penna. was drowned in Gull Lake, south of Minden on Sunday while he was swimming to a raft 300 feet from the shore.

CHAMBER OF COMMERCE

Mrs. Marg. McKay Secretary-Treasurer of the Highlands of Haliburton Chamber of Commerce reports that she had 186 people drop in to see her on July 15th. This is the largest number of people to call on her in one day in the last few years.

Weston Youth Drowns In Gull Lake

Thomas Steadman, 18 of Weston drowned in Gull Lake on Sunday July 21 when he was attempting to swim from a dock to a point of land about 300 feet away.

Whenever you are angry... say or do nothing before you have repeated the four-and-twenty letters to yourself.

Prominent Citizens

Fifth in a series

Dr. F. E. A. Griffiths

Minden is a very fortunate community as far as the health and welfare of its citizens is concerned. The town has a fine Red Cross Hospital ably staffed by trained nurses, a town ambulance service and Doctor F. E. A. Griffiths!

The town is particularly fortunate to have a doctor like Dr. Fred Griffiths. He is one of a fast disappearing race of "family doctors" who give not only skilled aid, but comfort and confidence to his patients. We asked Doctor Griffiths why the "family doctor" seemed to be disappearing from the scene, leaving rather than general practitioners, specialists in one or another aspect of medicine. He agreed that general practitioners were in very short supply and cited as an example his difficulty in getting an assistant this year. He pointed out that with state control on the horizon, more and more young doctors after their six years basic training and one years internship wanted to specialize for a number of reasons. Many feel they would be better off as specialists if state medicine came along, they feel they have more prestige than the general practitioner and their hours are better regulated. Dr. Griffiths commented that from the Class of '62 at the University of Toronto 130 out of 150 of the graduating class chose to specialize. He described it as a "very unfortunate situation." "What", we asked "do you think of State medicine", Doctor Griffiths, said "There is no doubt that everyone must be protected against the astronomical

cost of illness—the suggested Ontario Government plan is suitable and I think it will work. It is a different plan than the Saskatchewan plan where the legislature wanted to control physicians." He pointed out that the Government must not have control of the medical profession if the doctor was to have adequate freedom to treat his patients without interference, or without getting bogged down with paper-work. An automated doctor is the last thing we want, he commented.

Doctor Griffiths came to Minden in 1956 after his year of internship at the General Hospital for Sick Children in Toronto. He had graduated with an M.D. degree from the University of Toronto and was elected to membership of Alpha Omega Alpha Honour Medical Society 1953-54. Dr. Griffiths also has a degree from the College of General Practice. On arrival in Minden he bought Dr. Agnes Jamieson's Practice.

Mrs. Griffiths, formerly Elizabeth Little of Toronto met Fred Griffiths at Lawrence Park Collegiate and they both attended the University of Toronto where she graduated in 1951 as a Physical Therapist. They now have three children, Susan age seven, Ann-Marie age five and Julia age three.

A member of the United Church, this years President of the Rotary Club of Minden, a Member of the Granite Club of Toronto; Dr. Griffiths finds occasional relaxation in flying and logs 30 or 40 hours a year. He is also the Coroner for Haliburton County and the Health Officer for Anson, Hindon, Minden, Lutterworth, Snowden and Stanhope Townships.

Finally we asked Dr. Griffiths for some comments on a number of topics. "Is an Old People's Home necessary?" It is "absolutely essential" he replied. "What do you think of the town ambulance service?"

"It is excellent!" We then asked Dr. Griffiths for his feelings on the choice of location for the new Council Offices. "I feel", he said "that the Municipal Building should be located elsewhere, primarily because of the parking problem in town. A Municipal Parking lot must be provided soon and it could be placed around the Arena. Possibly Parking Meters could be installed, anyway the matter should be looked into".

Finally we talked for a few moments on the town. Dr. Griffiths foresees a tremendous growth for the area very soon, the new water system will help considerably, he said and a sewage system will come later. Parking is the most imminent problem facing the town council if visitors are going to shop in the town area.

At this point we decided to let Dr. Griffith back to his patients because, night or day — a doctor's work is never done!

Rotary Club of Minden Celebrates with Annual Carnival

Once again this year the Rotary Club of Minden celebrates with their annual Rotary Carnival on Wednesday July 31st and Thursday August 1st. Normally sedate gentlemen will be seen in town wearing flamboyant bowlers with bands around them publicizing Rotary.

The Minden Rotary Club was founded in 1947 and Rotarian Ken Currie was the first President. The Club meets every Monday at 6.45 p.m. in the basement of the Minden United Church.

Minden Rotary Club is one of over 11,000 Rotary Clubs in the world with over 510,500 Rotarians in 123 countries and geographical regions, all pledged to encourage and foster the ideal of service as a basis of worthy enterprise and specifically to maintain high ethical standards in business and professions, the recognition of the worthiness of all useful occupations and the applications of

the ideal of service by every Rotarian to his personal, business and community life, and the fostering of international understanding and goodwill.

Service to the Community is evident in Minden by the Rotary support of such worthy appeals as those of the Crippled Children's Association, the support given the Boy Scouts, the awarding of Scholarships, the reforestation programme, the Rotary Park for the citizens and other projects.

The Annual Carnival with its traditional boat draw provides the opportunity for the Rotary Club of Minden to raise the funds necessary for the continuation of its work.

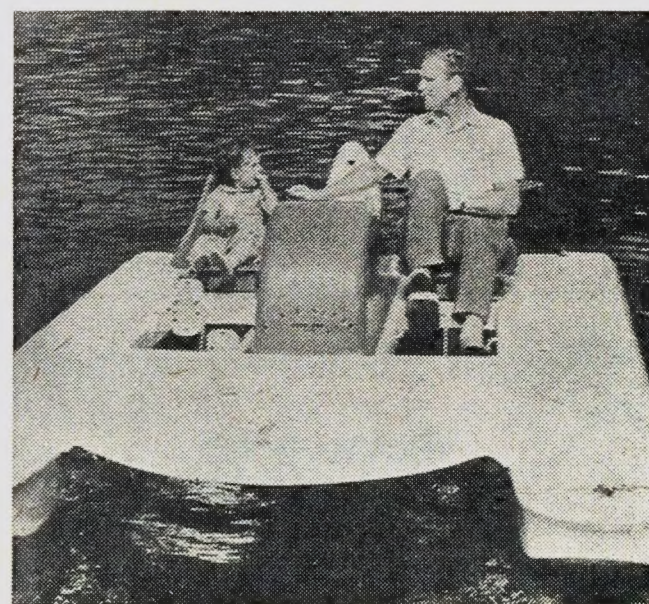

The Rotary Club asks you to support the Carnival as you have done in the past and at the same time enjoy yourselves!

ROTARY REPORT

Minden Rotary Club held its regular meeting on July 15 at which visitors were as plentiful as members and were introduced by Rotarian Harry Cowan. After the sing-song Rotarian Philip Sturge introduced the guest speaker Mr. Don McNab, a Rotarian from Mimico who summers on Horseshoe Lake who took as a topic "A Teacup of Metal". This proved to be an interesting talk on oil stressing the particular use of oils in the automobile industry.

The speaker was thanked by Rotarian Vinton Loucks. This reporter was unable to be present at the meeting of July 22 hopes to see a good turnout at the Rotary Carnival.

HEARING a strange sound the other evening everyone rushed to look outside... It was raining!

x x x

On reading an old book "Strangers Within Our Gates" published in 1908 we came across an interesting item in connection with immigrants from Iceland who left their native shores in 1874. From Iceland they went to Leith, Scotland, thence to Glasgow, and from there crossed the Atlantic. The majority went to Ontario and located at KINMOUNT. They were not satisfied however and in 1875 a delegation was sent to Manitoba to spy out the land. They finally selected Lake Manitoba for the new colony and in the fall of 1875 forsook Kinmount and journeyed out west. They went by boat from Collingwood to Duluth, and thence by rail to St. Paul and Fisher's Landing. Red River boats took the newcomers to Winnipeg, and the rest of the journey was made in flat-bottomed boats. Now if this is the Kinmount in our district, is there any record of these people? Did every single one go? Anyone know?

x x x

Here are some traffic items from other lands, quoted by the Ontario Safety League:

A woman driver in Culver City, California, on her way to apply for a driver's license, crashed through the side of the department of motor vehicles building, and landed right in front of the license applications counter. The report does not say if her license was granted.

The ordinary driver is the main safety traffic problem, says the Ontario Safety League. The problem cannot be solved by creating scapegoats — drunks, speeders, teenagers etc. — to take all the blame. Here's a tip for headlight glare: If high-beam headlights leave you dazzled try shutting one eye, this will leave you with one

eye with normal vision while the other is adjusting after the glare.

JOYS OF WRITING A COLUMN

Getting out this column is no joke.

If we print jokes people say we are silly. If we don't people say we are too serious. If we clip things from other books we are too lazy to write them ourselves. If we don't we are stuck on our own stuff. If we don't print contributions, we don't appreciate true genius and if we do print them, the paper is filled with junk. If we make a change in the other fellow's write-up we are critical. If we don't we are asleep. Now like as not some guy will say we swiped this from some magazine. We did!

A suit manufacturer, concerned about men who dislike being encumbered with luggage or paying airlines overweight, has come with a suit designed for the traveller with 19 pockets, including a built-in money belt. The suit comes without money.

x x x

An Irishman was telling a friend of his narrow escape in the war.

"The bullet went in me chest and came out me back", he said.

"But", protested his friend, "it would have gone through your heart and killed you." "Me heart was in me mouth at the time."

x x x

Aunt Kirsty says "You don't become an adult until you stop growing at both ends and start growing in the middle."

x x x

One day a little boy bought a hot dog on his way to church.

As he reached the door, he put the rest of his hot dog in his pocket. During the sermon the priest said, "God is everywhere; he is even in your pocket. The little boy got on his knees and prayed, 'God, please don't eat my hotdog.'"

x x x

Now a recipe for a Gourmet's Fish Fry.

For three or four servings you'll need...one pound of fresh or frozen cod or other fish fillets. One cup of sour cream, 3 tablespoons of chopped chives (you can use green onions), 2/3 cup biscuit mix, 1 teaspoon paprika, and salad oil or fat such as bacon drippings, for frying. Combine the sour cream and chives and put one third cup of this mixture in refrigerator. Blend biscuit mix and paprika. Take the remaining sour cream and the chives. Dip each fillet first in this, then in the biscuit mix, into the sour cream again and finally once again, coat with the biscuit mix. Place enough salad oil or melted fat in a large skillet so that it is about one quarter inch in depth. Fry fish in hot fat about three or four minutes on each side, turning gently until it is crisp and brown. Serve immediately with reserved sour cream chive mixture.

It is a thing of no great difficulty to raise objections against another man's oration, — nay, it is a very easy matter; but to produce a better in its place is a work extremely troublesome.

— Plutarch

TAILPIECE

As nearly everyone knows, an executive has practically nothing to do except to decide what is to be done, to tell somebody to do it, to listen to reasons why it should not be done, why it should be done by someone else, or why it should be done a different way.

To follow up to see if the thing has been done, to discover that it has not, to inquire why, to listen to excuses from the person who should have done it, to follow up again to see if the thing has been done correctly.

To point out how it should have been done, to conclude that as long as it has been done, it may as well be left where it is; to wonder if it is not time to get rid of a person who cannot do a thing right.

To reflect that he has probably a wife and large family and that certainly any successor would be just as bad and may be worse.

To consider how much simpler and better the thing would have been done if one had done it oneself in the first place.

To reflect sadly that one could have done it right in twenty minutes, and as things turned out one has had to spend two days to find out why it has taken three weeks for somebody else to do it wrong. — "The Magic Carpet"

Prominent Citizens

Fifth in a series

Dr. F. E. A. Griffiths

Minden is a very fortunate community as far as the health and welfare of its citizens is concerned. The town has a fine Red Cross Hospital ably staffed by trained nurses, a town ambulance service and Doctor F. E. A. Griffiths!

The town is particularly fortunate to have a doctor like Dr. Fred Griffiths. He is one of a fast disappearing race of "family doctors" who give not only skilled aid, but comfort and confidence to his patients. We asked Doctor Griffiths why the "family doctor" seemed to be disappearing from the scene, leaving rather than general practitioners, specialists in one or another aspect of medicine. He agreed that general practitioners were in very short supply and cited as an example his difficulty in getting an assistant this year. He pointed out that with state control on the horizon, more and more young doctors after their six years basic training and one years internship wanted to specialize for a number of reasons. Many feel they would be better off as specialists if state medicine came along, they feel they have more prestige than the general practitioner and their hours are better regulated. Dr. Griffiths commented that from the Class of '62 at the University of Toronto 130 out of 150 of the graduating class chose to specialize. He described it as a "very unfortunate situation." "What", we asked "do you think of State medicine", Doctor Griffiths, said "There is no doubt that everyone must be protected against the astronomical

cost of illness—the suggested Ontario Government plan is suitable and I think it will work. It is a different plan than the Saskatchewan plan where the legislature wanted to control physicians." He pointed out that the Government must not have control of the medical profession if the doctor was to have adequate freedom to treat his patients without interference, or without getting bogged down with paper-work. An automated doctor is the last thing we want, he commented.

Doctor Griffiths came to Minden in 1956 after his year of internship at the General Hospital for Sick Children in Toronto. He had graduated with an M.D. degree from the University of Toronto and was elected to membership of Alpha Omega Alpha Honour Medical Society 1953-54. Dr. Griffiths also has a degree from the College of General Practice. On arrival in Minden he bought Dr. Agnes Jamieson's Practice.

Mrs. Griffiths, formerly Elizabeth Little of Toronto met Fred Griffiths at Lawrence Park Collegiate and they both attended the University of Toronto where she graduated in 1951 as a Physical Therapist. They now have three children, Susan age seven, Ann-Marie age five and Julia age three.

A member of the United Church, this years President of the Rotary Club of Minden, a Member of the Granite Club of Toronto; Dr. Griffiths finds occasional relaxation in flying and logs 30 or 40 hours a year. He is also the Coroner for Haliburton County and the Health Officer for Anson, Hindon, Minden, Lutterworth, Snowden and Stanhope Townships.

Finally we asked Dr. Griffiths for some comments on a number of topics. "Is an Old People's Home necessary?" It is "absolutely essential" he replied. "What do you think of the town ambulance service?"

"It is excellent!" We then asked Dr. Griffiths for his feelings on the choice of location for the new Council Offices. "I feel", he said "that the Municipal Building should be located elsewhere, primarily because of the parking problem in town. A Municipal Parking lot must be provided soon and it could be placed around the Arena. Possibly Parking Meters could be installed, anyway the matter should be looked into".

Finally we talked for a few moments on the town. Dr. Griffiths foresees a tremendous growth for the area very soon, the new water system will help considerably, he said and a sewage system will come later. Parking is the most imminent problem facing the town council if visitors are going to shop in the town area.

At this point we decided to let Dr. Griffith back to his patients because, night or day — a doctor's work is never done!

Rotary Club of Minden Celebrates with Annual Carnival

Once again this year the Rotary Club of Minden celebrates with their annual Rotary Carnival on Wednesday July 31st and Thursday August 1st. Normally sedate gentlemen will be seen in town wearing flamboyant bowlers with bands around them publicizing Rotary.

The Minden Rotary Club was founded in 1947 and Rotarian Ken Currie was the first President. The Club meets every Monday at 6.45 p.m. in the basement of the Minden United Church.

Minden Rotary Club is one of over 11,000 Rotary Clubs in the world with over 510,500 Rotarians in 123 countries and geographical regions, all pledged to encourage and foster the ideal of service as a basis of worthy enterprise and specifically to maintain high ethical standards in business and professions, the recognition of the worthiness of all useful occupations and the applications of

the ideal of service by every Rotarian to his personal, business and community life, and the fostering of international understanding and goodwill.

Service to the Community is evident in Minden by the Rotary support of such worthy appeals as those of the Crippled Children's Association, the support given the Boy Scouts, the awarding of Scholarships, the reforestation programme, the Rotary Park for the citizens and other projects.

The Annual Carnival with its traditional boat draw provides the opportunity for the Rotary Club of Minden to raise the funds necessary for the continuation of its work.

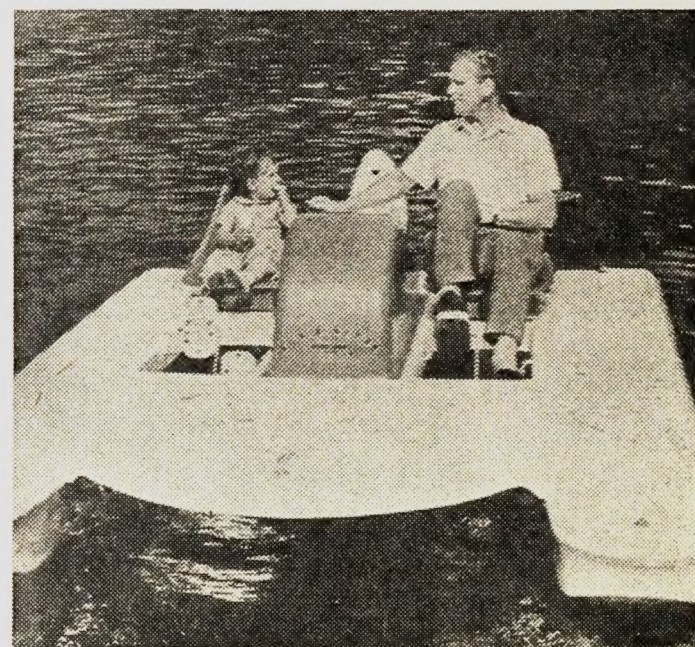

The Rotary Club asks you to support the Carnival as you have done in the past and at the same time enjoy yourselves!

COMMENTS

We were talking to Gord McManus of Caribou Lodge a few days ago and the conversation turned to the number of water accidents that have taken place in this area recently. A number of cases of drownings and a fatal boat accident at Bobcaygeon emphasise the need for more water safety.

Legislation is obviously needed to control outboards. Too often young people are permitted to ride the waterways with outboards of great power and becoming in consequence a potential danger to all those using the lakes including themselves. A system of driving instructing and licensing in the manner of motor vehicles seems to be called for in case the water-slaughter is going to match the road deaths in intensity in the future.

x x x

An editorial in a recent copy of The Peterborough Examiner discussed the ambulance services available in Canada. The lead article compared the way ambulances are run here (in many cases as a profit making operation) with the state service provided in Moscow. There all ambulances carry a doctor and two assistants, and medical attention can commence immediately they arrive at the scene of an accident or other emergency. The ambulances are fully equipped with artificial lungs, blood test equipment, blood substitute transfusion equipment and a wide selection of drugs and instruments and anaesthetizing equipment. Ambulances so equipped and manned are not perhaps practical at the present time but it does seem that the time has come for the provincial government to take over the operation of the ambulance systems and provide an adequate network for the whole province. The Government should consider this as a moral necessity.

It is always interesting to look back to the old days and we were able to get a peak into the happenings of October 1909 recently through the courtesy of Mr. Vanderyagt, of Fencelon Falls who lent us a copy of "The Evening Post" published in Lindsay. Front page stories include one of "Gold Discovered at Tory Hill" with the subheading "The Richness of the Find Increases with Depth". The story continues "We are assured that the reports of a find of precious metal near the railway, only three miles from Tory Hill, is no fake story by any means. A few gentlemen, satisfied that there were possessions of a mining interest of great value, employed Mr. J. K. Sunstrom, of Detroit paying him a high salary for his professional services; who as a consulting engineer, thoroughly examined the holding and who reports from careful assays made practically a whole hill, worth \$129 per ton. There are millions of tons of ore, and the richness seems to increase with depth." We wonder how much of the hill is left today!

An article headed "Open Envelope Contained a Fiver" comments on the honesty of the post office and mail clerks in general when it reports on a five dollar bill mailed from Central, Illinois that arrived open in Minden with the money "protuding from the envelope."

Few of the Lindsay advertisers in the 1909 paper seem to be active today and the Railway Schedules published are of course those of the Grand Trunk Railway. The paper contains many of the pseudo-medical adverts of the times for the relief of Nerves and mental affliction by Rhythmotherapy and an exciting ad headed "Given Up to Die" in which the testimonial reads "At one time I was so low that everyone thought I was going

to die, and the last Rites of the Church were administered to me. I was treated by six different doctors without any benefit...". Fortunately for the lady she discovered the wonderful remedy and "I have taken eighteen boxes in all and I am now perfectly well again."

x x x

Another gentlemen in Fencelon Falls, Mr. A. Tiers, brought me over a copy of the Ford Times magazine for April 1917 which afforded another glimpse into the yesteryear of the motorcar. A dramatic picture of a Ford Car with its wheels deep in snow carries the caption "Wherever you go you see them; wherever you see them they go". Other illustrations show early Ford cars being used by Malay States Volunteer Rifles machine gun section in the 1st War and these pictures include some of the most intriguing motor-cycles I've ever seen. Prices f.o.b. Ford, Ontario are shown at the rear of the book. The Ford Runabout price \$475; the Ford Touring Car \$495; the Ford Coupelet price \$695; the Ford Town Car \$780; the Ford Five-passenger Sedan price \$890 and the Ford Chassis for commercial purposes was \$450.

And finally from the Ford Times of April 1917 this little editorial so right still in 1963.

"By rubbing elbows we erase prejudices and antagonisms. At contact we find that the main difference between most of us is a matter of accent, tailors, and table manners; at heart we're pretty much the same. Sectional dislikes are founded upon hearsay far oftener than experience.

We believe the worst of those whom we have not met. No one particular town breeds super-men. Go soft in your criticism of certain fellow-citizens. You'll probably have a few of them for children-in-law later on."

Tonga Gets Gold Coinage and Gold Stamps

This year the Southwest Pacific Kingdom of Tonga placed into circulation the first coins ever produced by the Friendly Islands. Executed in gold by the Royal Mint in London the coins were the first non-premium overface value Gold Pieces to form an integral part of any nation's currency since the world-wide demonetization of gold some thirty years ago.

To commemorate the coins the Kingdom of Tonga have released an extraordinary set of postage stamps. The stamps are actual-size embossed replicas of the real coins, obverses and reverses on laminated gold foil. These are claimed to be the most expensive postage stamps ever made and are printed singly and die-cut round. They are the heaviest stamps ever made the 1 Koula value for instance weighs 41 times as much as the Canadian Queen stamp. All thirteen values, regular and airmail are printed on gold foil with special tropical gum backing. Impervious to ordinary cancelling inks it has been necessary to devise a special cancellation die and ink.

WEDDING

Sears-Leaman Wedding

In a double ring ceremony in Oakwood United Church, Toronto, Jeanette Carolyn, eldest daughter of Mr. and Mrs. Milton Sears of Minden was wed to Reginald Paul Leaman of Newmarket. The groom is the eldest son of Mr. and Mrs. R. Leaman of Newmarket. For their honeymoon Mr. and Mrs. Leaman visited Minden. They will be residing in Toronto.

LETTERS

Reader Reports Cruelty To Wildlife

Dear Sir;

The Highlands of Haliburton, Gull River to be exact, too lovely a river to row or motor up, to be spoiled by such mockery of two of our wild life to be hung up in a tree overhanging the river. A Crow and a Porcupine hanging by their feet—such cruelty to dumb animals.

We have been coming up here for six years—what must our friends and tourists think of such a cruel thing when they go up the river to Minden from Gull Lake. It takes all kinds to make a world but why this kind?

Speaking of the other kind, we also have children, and little ones who like to swim in front of our cottages. We have to keep an eye on them, but to make things unpleasant there are the "Holidaying Crowd" who have to let off steam, by speeding and showing off on water skis, which is against rules and regulations of the rivers.

Mind you, we like our fun too, but we have learned our lessons with dumb animals and waterways.

Gilbert Windsor Passes

Haliburton County was saddened by the passing of Gilbert Windsor Clerk of the nine townships of the municipality of Dysart on July 11, 1963. Mr. Windsor had been in hospital for a week prior to his death due to a heart seizure. He was 72. Mr. Windsor had previously been a teacher at Victoria St., Haliburton Public School and until his death lived on a farm a mile east of Haliburton village.

He is survived by his wife the former Christine Irwin and a brother Maurice Windsor of Carnarvon.

TRADE-IN DEPARTMENT

SPORTS

WITH BOB BEENEY

Having a few moments to spare one evening last week I slipped over to one of my neighbors, Les Northey, in hopes of finding out a little about the sport of skindiving. Les was busy in his garden, however I managed to persuade to enlighten me on this fast growing underwater pastime. Haliburton County with its over five hundred lakes is a natural for this sport but at the moment there are not too many local participants, although in Minden Bob Austin and Pat Harrington along with Les are enthusiasts. Actually scuba (Self contained underwater breathing apparatus) diving is a more accurate name for the activity.

To reach a depth of 25 feet all that is needed is a set of fins, a mask, a snorkel, a tank and a regulator. After that depth is attained a suit must be worn because of the cold water. There are two types of suits, one is a dry suit that you wear clothes under and the other is a wet suit that insulates against the cold but doesn't keep the water out. The cost of all the equipment necessary is approximately \$400. Les started diving six years ago simply because the sport was a challenge to him and proved to be fascinating and stimulating. Many different people have approached him to use his talents to search the depths. He has searched for items such as wallets, outboard motors, a diamond ring and was called on two occasions to search for drowned persons. Pat Harrington and he recovered a motor in Mountain Lake at a depth of 85 feet but the most amusing article they found was a set of false teeth lost by a local person in Caning Lake.

One time in Lake Kashagawigamog, Les came within a few feet of a bass that would weigh nearly eight pounds and could have reached out and touched it. Some fish such as perch, pickerel, bass and sunfish become quite curious and will follow a diver along the bottom of the lake. Trout and whitefish are the opposite and are very wary. Les mentions that it is a real experience to sit on the bottom of a body of water and watch the underwater life in its natural habitat. The situation resembles an immense aquarium with the diver sitting in the middle of it.

There isn't any active club in the County, however Jack Young of Bonnie View has been interested in starting one and Jack has a compressor that is needed to fill the tanks. Spearing fish is illegal, however the divers would like to see a change in the law so that they could be allowed to use their spears. Scuba diving is classed as one of the world's ten most dangerous sports.

MINDEN MAN KILLED

A 19-year-old Minden youth, Allan Richardson, was instantly killed late Saturday night when his car collided head-on with another vehicle driven by Gregory Dominic Way, 17, of Toronto, on highway 121 near Kinmount.

Both Way and a passenger in the Richardson car, Reginald Coulter 17, of Oshawa were rushed by Nisbett Ambulance of Bobcaygeon to Ross Memorial Hospital in Lindsay with severe facial lacerations. Way was alone at the time of the accident, which occurred at 10:00 p.m. Saturday.

Constable James Plumbtree of Fenelon Falls Provincial Police investigated the accident and considered both cars completely wrecked.

A post-mortem was held Monday and an inquest date will be set, the officer stated.

Toronto Woman Rushed To Huntsville After Head On Crash

Beatrice Holford of Toronto was rushed to Huntsville Hospital by Minden ambulance after a car she was driving had a head on collision with a car driven by Carmen R. Griffin of Dorset. The accident that happened on July 20 at 3 p.m. on Highway 35 at Dorset was investigated by Constable Bush of the Minden Detachment of the O.P.P. The estimated damage to the two cars was \$1500.

Three Car Collision Near Carnarvon

There was an estimated damage of \$400.00 to three cars after they collided just south of Carnarvon on highway 35 on Sunday July 21st at 5:30 p.m. The drivers of the cars were William Langdon of Orillia, Walter Uffelman of Toronto and Roderick Runciman of Toronto. The accident was investigated by Corporal Eastwood of Minden.

Those whose conduct gives room for talk are always the first to attack their neighbours.

Another Hodgson Wins Nomination

Another member of an already well-known political family has been nominated as standard-bearer in future provincial election.

Louis Maclean Hodgson, 28, former RCMP officer and manager of a Toronto investment house, nominated Tuesday night as Progressive Conservative candidate in the new provincial riding of Scarborough-East.

Mr. Hodgson is the son of Clayton Hodgson, former member of parliament for Victoria and a brother to Glen Hodgson, Conservative candidate in this provincial riding.

Our virtues are most frequently but vices disguised.

Lightning Bolt Hits at Mountain Lake

A Clergyman from Hamilton was struck by the same bolt of lightning that killed a dog and two ponies at Mountain Lake near Haliburton. The Rev. William Simpson, his son and Robert Gorrie of Carnarvon were in the vicinity where the cleric has his cottage. Rev. Simpson was taken to Minden where he received first aid from Dr. F. E. A. Griffiths and then he returned to his cottage to rest and recover from the shock. The weekend storm also felled Elmer Workman of RR 2 Cannington with a bolt of lightning as he pitched hay into a wagon with a steel fork. Mr. Workman's shirt was almost burned from his back and he suffered serious burns to his chest and left foot. He was taken to Lindsay hospital where he is in satisfactory condition.

Pete at The Ponderosa

Minden Progress newsman interested in finding out where Pete Dollo disappears to on the weekend report that they have discovered him in a tented camp in the "Ponderosa" property located on the Gull River down the end of Anson Street, where he and Chris are usually busy barbecuing steaks. This report is only published in order to inform Pete that the steak odour wafting across the Gull River to Orde Street is disturbing to hungry newsmen.

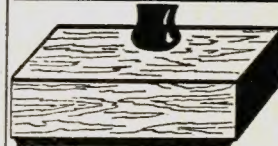

Talking of Street names, how many readers know the names of Minden streets or even the fact that the streets have names! As far as we know, none of the streets have nameplates up. In Minden we have Main Street, Street "A", Anson Street, Orde Street, Milne Street, Germains Street, Chandos Street, Lyons Street, New-castle Street, Prince Street, North Water Street, South Water Street and the Bobcaygeon Road. The streets in McKayville are named First Street through to Fifth Street. Just eighteen street names in addition to No. 35 highway. How many of them can you place correctly?

The dreams of childhood — its airy fables; its graceful, beautiful, humane, impossible adornments of the world beyond: so good to be believed in once, so good to be remembered when outgrown.
